## Education

---

### Tennessee Technological University

BS , Computer Science with a concentration in Cybersecurity | GPA: 3.68

Cookeville, TN

04/2026

## Projects

---

### Weather App

08/2025

- Built a responsive weather app using HTML, CSS, JavaScript, and Bootstrap to display real time weather data for Cookeville, TN.
- Integrated Open-Meteo API to Fetch and display temperature, humidity, precipitation, and weather conditions.
- Enhanced user experience with SweetAlert2 for error handling and a mobile optimized UI with Apple touch icons.

### Course Management Dashboard

08/2025

- Collaborated with a team of 2 on front-end development using HTML, CSS, JavaScript, and Bootstrap to create a visually appealing, responsive, and accessible dashboard for professors and students, with robust email/password validation for secure login
- Contributed to back-end development with a team of 4 using Node.js, Express, and MariaDB to enable professors to add/manage courses, enroll students, and create student reviews.
- Implemented student features to view enrolled courses and submit instructor feedback.
